

Read, Write, Inc. Phonics

Read, Write, Inc. Phonics is an inclusive English programme for all children learning to read. It is aimed at children reading in EYFS and KS1 and teaches synthetic phonics. Children learn the 44 common sounds in the English language and how to blend them to read and spell. The scheme includes both a reading and a writing focus.

Reading is the key that unlocks the whole curriculum so the ability to efficiently decode is essential. The R.W.I sessions are expected to occur each day with no exceptions, as the continuity and pace of the programme is key to accelerating the progress of children's reading development.

We also use RWI home readers for our families to enjoy reading at home.

Reading Scheme

We use a number of Reading Schemes to supplement our Phonics Scheme, e.g. Phonics Bug.

Phonics Bug books are used mainly in Reception for children who are not yet accessing RWI home readers.

RWI home reading books is a scheme which mirrors the phonic programme delivered in school and matches their phonic development. Books support reading development and comprehension skills.

All children once they progress beyond RWI are assessed half termly to determine their coloured reading band and select a book of their choice from this colour banding.
